

Our offer, your future.

Delta Engineering is the European market leader in factory automation for the blow moulding industry. Started as a two-man business in 1992, today the company is working with more than 100 qualified and dedicated employees.

Together we develop a wide range of innovative and efficient quality machines in close cooperation with our customers. In this way we guarantee a stable position on the market and a promising future for our company and our employees. To guarantee our further development, we are looking for a (m/v)

Electrical Design Engineer

Your devotion

- You are responsible for the development and design of the electrical and pneumatic part of the machines and installations.
- You are responsible for the elaboration of the electrical side of the machines and installations in accordance with the required safety level.
- You assist with the start-up of the machines and installations.
- You support the Service & Support department.
- You work together with colleagues from other entities.

Your talents

- You have a Master degree in a technical direction or equivalent through experience.
- You are aware of laws and standards regarding electrical installations.
- You have a positive mind and you are able to work independently as well as in a team. You are stress resistant and can respect deadlines.
- You have a practical knowledge of English.

Our offer

- We promise you a challenging job in a healthy and growing company with a clear defined mission.
- The possibility to work together with an enthusiastic team, to work in a famous company recognized as a domain leader, with a clear vision of the future.
- To continuously improve your education, knowledge and experience.
- A financial compensation, proportional with your experience and contribution.
- We offer you a health insurance, hospitalisation insurance and meal tickets.

Your future?

Then we would like to receive your application together with your CV! You can send your application by email to hr@delta-engineering.be or by postal service to the attention of Mr. Glenn Van Nuffel.
